

# Autum park

The main theme of my work — ways of spending time on outdoor, especialy walking in parks and around squares. Last year on very unusual english lesson we with my classmates went out of school and moved to park that is situated near our shool, that was a beautiful day, we were walking, feeding birds, and speaking english a lot. That was very interesting lesson, were we knew a lot of new english words and names of birds, flowers and trees.

We had a lot of fun and get amount of very usefull information, so we would like to continue our lessons on the outdoor like this.

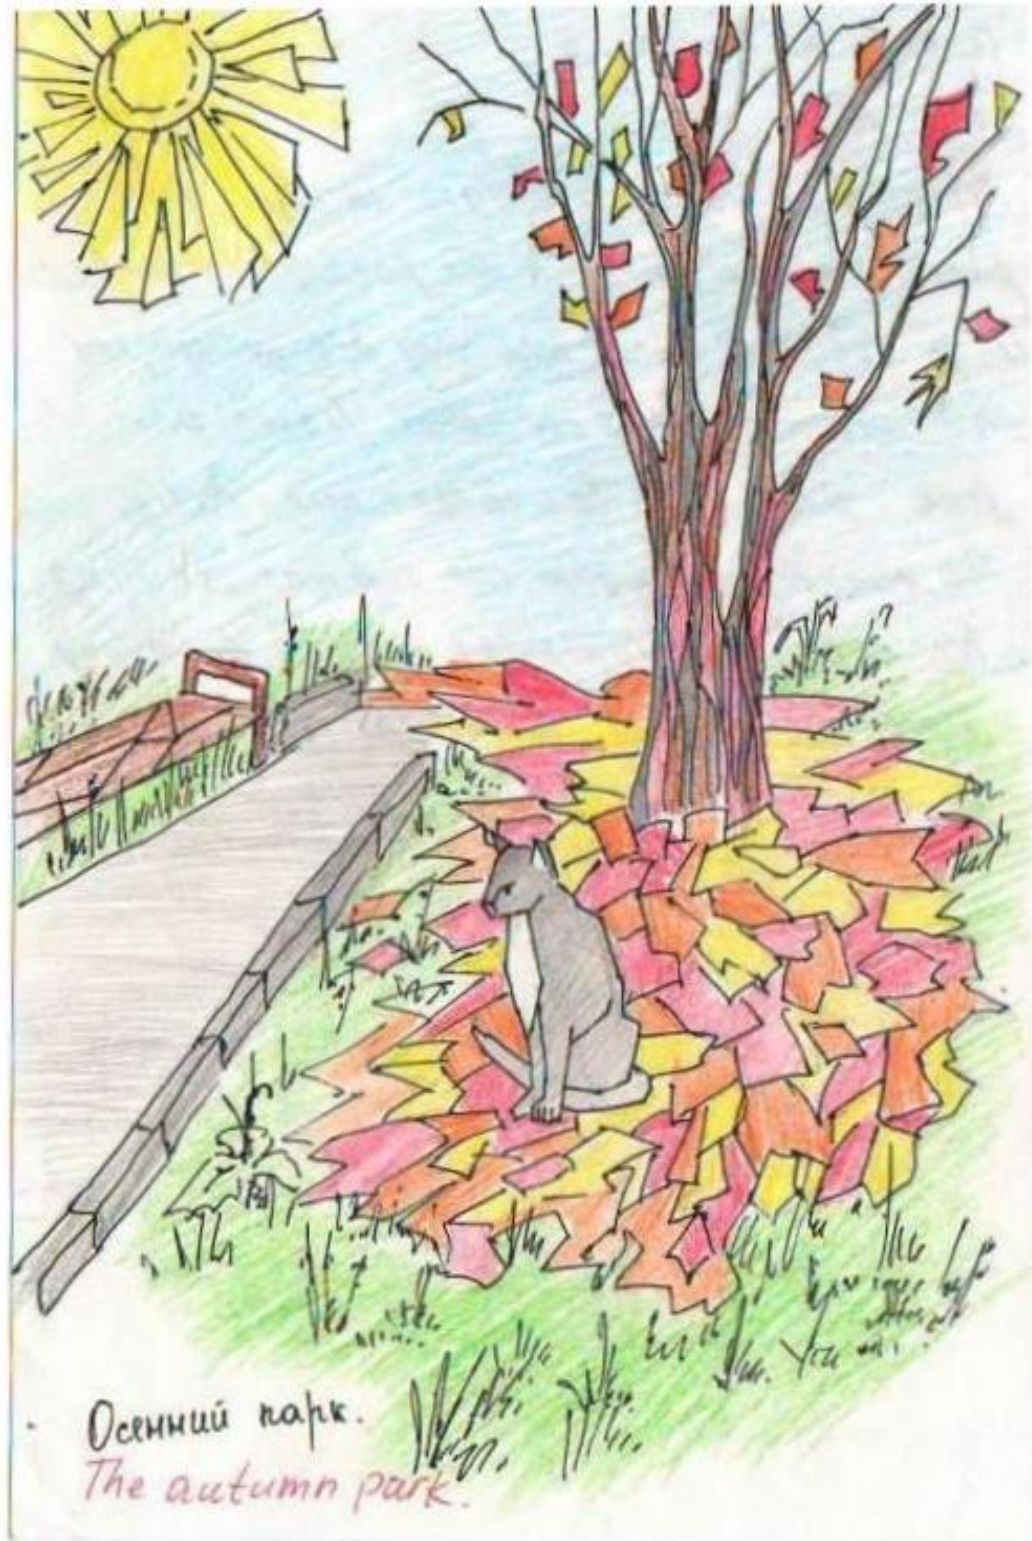

# Our projects

Осенний парк.  
The autumn park.

# Winter park

We continue our outdoor lesson at winter, we went to park again but before our walking we made special feeders for birds, we again were having a lot of fun, playing snowbals, placing feeders, and talking about nature on english.

In conclusion I would like to say that on this kind of lessons we get exceptional and big experience which helped us to understand that in studying foreign languages a lot of peculiarities and one of them — right casual speaking with friends and lovely teachers.

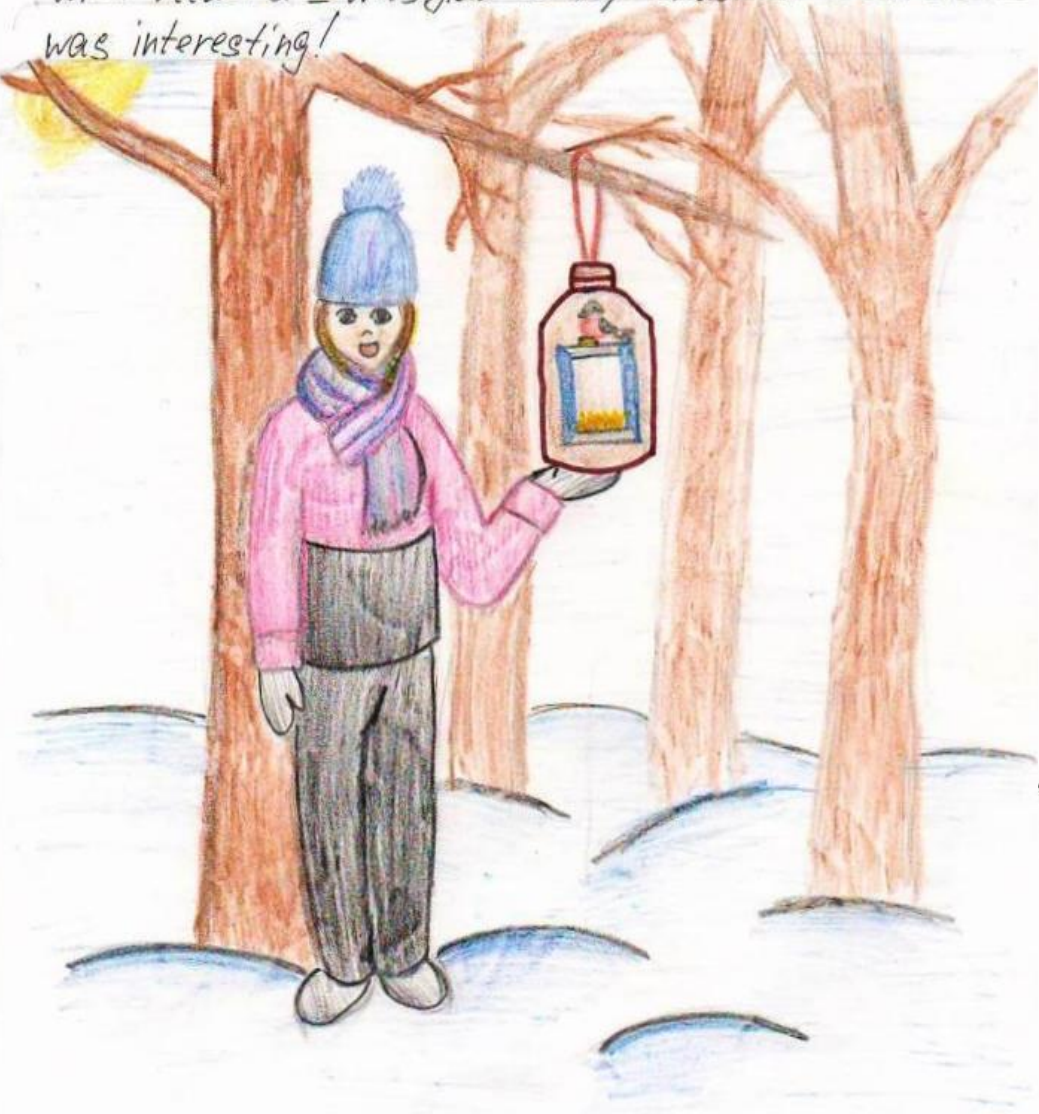

# Our winter projects

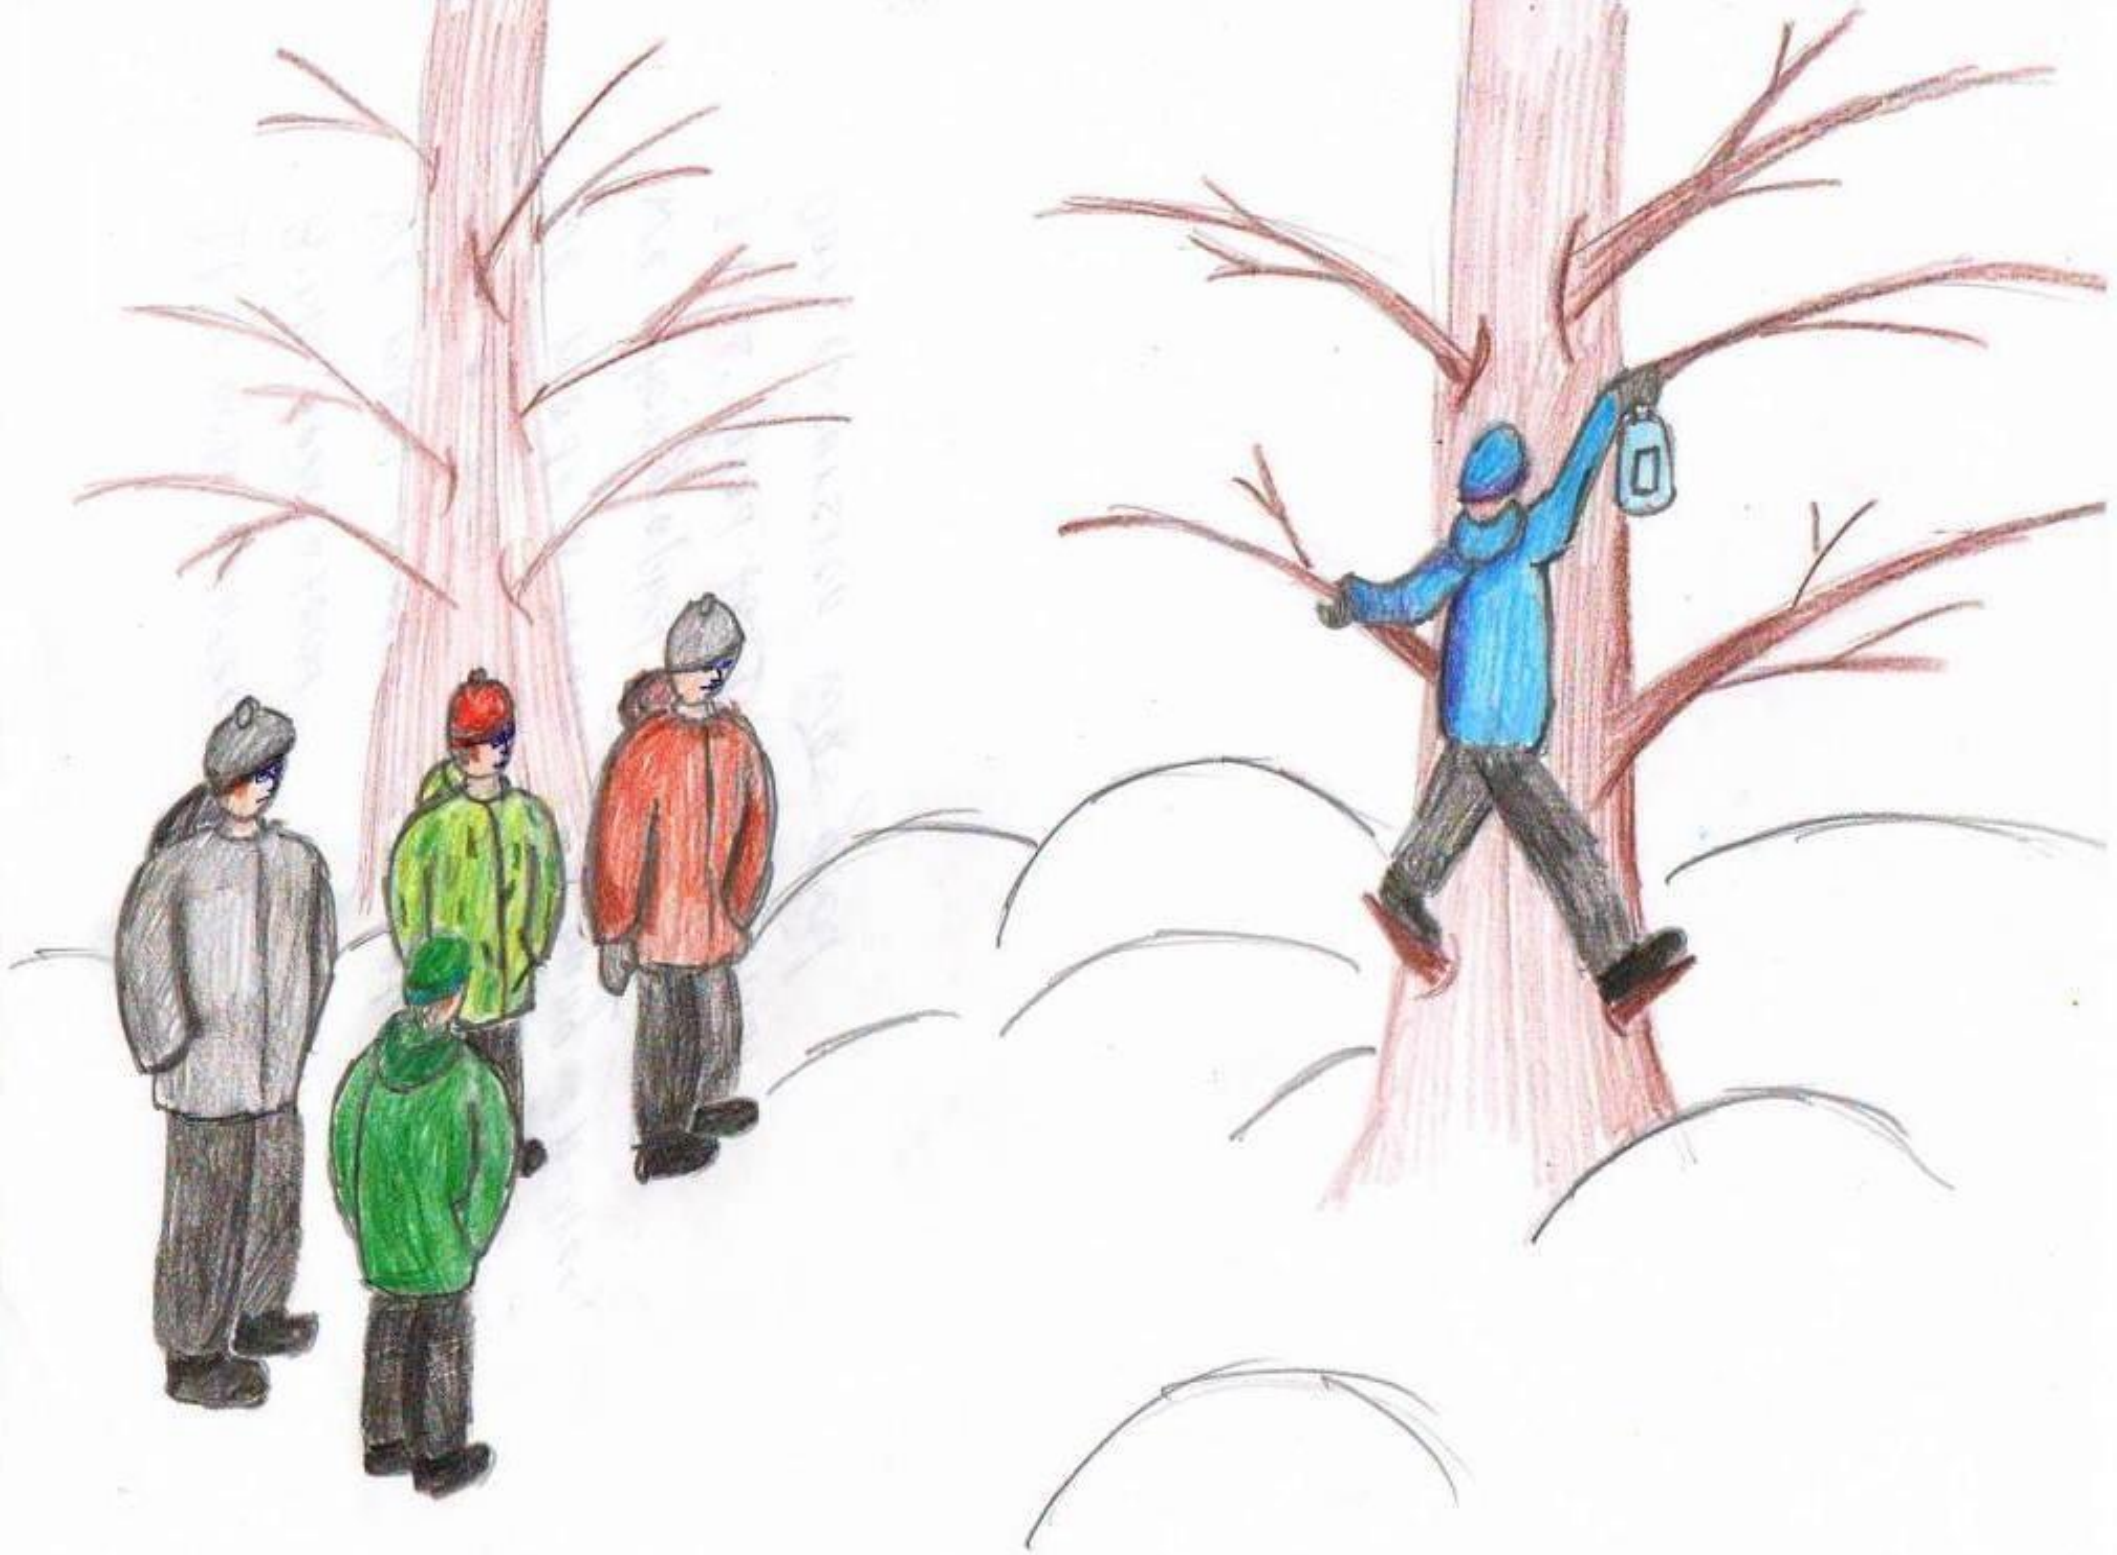

# Help birds

It is cold in winter in Russia. Birds need in food. We must protect our nature and save animals. We made bird feeders of different material. Is brought <sup>up</sup> of house different fodder: bread, millet. Afterwards we went in park. We hang feeders in park. And afterwards took photos with feeders. I was glad to help birds. Our excursion was interesting!

**Thanks for watching!**
